Product Description

Polyflex 204 is a high performance membrane of Polyurea. It provides excellent insulation and is resistant to a variety of chemical products. It can be used in a wide range of climatic conditions while continuing to offer excellent durability. Applications are done primarily by brush and roller. Due to its aliphatic nature the product is suitable in exterior applications. It has high solid content and remains flexible. While it can be used as a repair kit, it can also be used as a complete water proofing membrane.

Area of Use

Substrates
Over properly prepared:
- Ferrous Metal
- Aluminum/Non-Ferrous Metal
- Galvanized Metal
- Concrete
- Concrete Block
- Geotextile

Possible Uses
- Steel or Concrete Tanks
- Refineries
- Food Processing Facilities
- Water and Wastewater Treatment Facilities
- Chemical Processing Facilities
- Pulp and Paper Mills
- Concrete Structures
- Dry Holds/Wet Holds
- Pipes
- Containment and Secondary Containment
- Floors
- Material Handling Equipment
- Port and Pier Facilities

Ready Reference Information

Color: Various colors
Type of cure: 2 components
Binder: Aliphatic

*Solids by volume: 91%*
*Solids by weight: 90%*
*combine with the catalyst*

V.O.C.: 96 g/l

Flash Point: 102° F
Recommended dry film thickness/coat: 40 mils
1000 microns

Theoretical Coverage:
At 1 mil: 1461 ft²/gal
At 25 microns: 135 m²/3.78 liter

Ratio: 1:1

Pot Life: 20 minutes max
Shelf Life: 1 year

Drying Times and Temperatures*

Gel Time: 45 minutes
Tack free: 4 hours
To recoat: 2 hours minimum; 24 hours maximum
Hard dry: 24 hours
*(may vary with climatic conditions)*

Product Features

- Superior anti-corrosive protection for steel and concrete in cold service climates.
- Protective membrane on metal, masonry, silos, all kinds of pipes and stone slabs.
- Application on geotextile to form ponds, to retain overflow, prevent effluent leakage, water and petroleum product leakage.
- Provides an excellent waterproof protection on rigid urethane insulation.
- Garage and parking decks.
- Can be used to repair or replace an existing membrane.
- Excellent abrasion resistance.
**Recommended Systems**

Moisture Cure Urethanes (MCU) Approved Primers (when appropriate):
- MC-CR
- MC-Miozinc
- MC-Zinc
- MC-Ferroclad 100 PW

**Compatible Coatings**

Moisture Cure Urethane (MCU) Coatings:
- Primers:
  - MC-Ferroclad 100 PW
  - MC-Zinc
  - MC-Miozinc
  - MC-CR

**Surface Preparation**

See Wasser's Polyurea Application Guide.

**Application Information**

*For Polyurea and/or polyurethane membranes*:

Roughen the surface of Polyflex with a 40 grit (or less) abrasive, remove dust with a dust rag or vacuum. Make sure the surface is clean, dry and dust free before the application. Clean the surface with acetone, let the acetone evaporate and apply the repair kit.

*For concrete*:

Make sure the concrete surface is dry and clean. The grout and loose particles on concrete surface need to be cleaned before the application. If a hardener was used in the concrete, it must be roughened with a Blastrac machine or equal impact tools. Direct or primed applications can be done. (Blastrac is a registered trademark of the Wheelabrator Corporation.)

*For steel*:

First remove all grease, oil, salt contaminants and dirt in accordance with SSPC SP-1 solvent cleaning procedure. High pressure water wash using salt solubilizing agents can be used to remove the remaining salt. SSPC SP6 or SSPC SP10 may be used depending on the application.

* Consult your Wasser representative for specific and detailed applications as well as choosing the appropriate primer.

**Performance Testing Data**

*Resistance to tearing:*

( ASTM D-624-C) Tear strength = 21.6 N/mm (123.1 PLI)
Physical Properties

Properties under tension:
(ASTM D 412-C) Ultimate Elongation = 327 %
Tensile strength = 5.2 N/mm² (754 PSI)

Indication of hardness:
(ASTM D-2240) Shore A 85

Ordering Information

Product Numbers:
Package Size: 5 gallon pails (10 gallon sets)
1 gallon pails (2 gallon sets)
Order in sets only.

Shipping Information

Package Size: 5 gallon pails (10 gallon sets)
1 gallon pails (2 gallon sets)

Safety Precautions

Precaution:
See the material safety data sheet and product label for complete safety and precaution requirements.

"The following is made in lieu of all warranties, expressed or implied: Manufacturer's obligation shall be to replace such quantity of the product proven to be defective. The manufacturer shall not be liable for any injury, loss or damage, direct or incidental or consequential, arising out of the use of or the inability to use the product. Before using, the user shall determine the suitability of the product for the intended use and the user assumes all risk and liability whatsoever in connection therewith. All values shown are approximations. Values indicated are for guide purposes only, as actual values can change due to application conditions, application methods, environmental conditions etc. The information contained herein is subject to change without notice."
